

California-based Pertexa Announces Partnership with eClaim Solutions of Toledo, Ohio

Pertexa Healthcare Technologies, Inc. is pleased to announce that it has agreed to partner with eClaim Solutions of Toledo, Ohio. eClaim Solutions will be a consulting partner and a distributor for all Pertexa offerings including our two flagship products, Radekal and RITA.

eClaim Solutions will provide technologies and process improvement for companies requiring support in telehealth; electronic health records; revenue cycle management and billing. EClaim Solutions can be contacted at 419-475-1017.

Thomas Bode, CEO of eClaim Solutions has been heavily involved with the development of Radekal PM, the key link between RadekalEHR and enhanced billing speed and physician productivity. Tom is a Computer Science Engineer from the University of Toledo. He moved into healthcare in 2003 with a focus on Revenue Cycle Management and improved workflow using proven technologies to automate and improve efficiencies.

“eClaim Solutions was formed 10 years ago to bring cutting edge software technology to medicine. Radekal PM has been used by 1,000 + clinics for ten years. Radekal, the productivity tool, is a decade ahead of anything on the market. The release of the cloud-based Radekal, when utilized with Radekal PM, will transform the medical billing industry. While the wait has been long, eClaim Solutions is pleased to be a part of the Pertexa product team”, Tom Bode, eClaim Solutions CEO stated.

“I have known and worked with Tom for 10 years. Early on, Tom realized this is not an EHR that doctors have learned to despise but rather, a transformative productivity tool built by Doctors for Doctors. It is designed just the way they were trained in medical school. Tom, thanks for all your hard work and trust you have shown as we’ve developed this transformative product. It has been worth the wait”, Kishor Joshi, CEO commented.

About Pertexa:

Pertexa, Inc. is a next-generation medical technology company headquartered in Ridgecrest, California that creates and distributes advanced technology including RITA and RADEKAL, the nation’s leading Physician’s Productivity Tool, which has been shown to increase productivity by 30%. By combining both hardware and app development for worldwide medical use, Pertexa is an innovative brain trust, advancing disruptive transformational technologies for an evolving healthcare environment.
